Since all programs are provided free of charge to families fundraising is critical. Little Star Foundation operates on the generosity of others. Your donation is vital in improving and saving lives.

On behalf of all the children, families and communities in need and with cancer benefiting from Little Star Foundation Programs, a heartfelt thank you to you.

Peter C. Adamson, a pediatric hematologist oncologist at Children's Hospital of Philadelphia (CHOP), shares "successes don't tell the whole story. Between 15 and 20 percent of children with common ALL (Acute Lymphocytic Lymphoma) cancer relapse after chemotherapy, and other childhood cancers have not seen a great improvement in survival."

Little Star Foundation has helped children with cancer that have relapsed numerous times, even over 9 times. It is why Little Star Foundation specializes in Long Term Care Programs. Cancer doesn't only come for one month, a year or even only one time for some children and families with cancer. This year Little Star has received unparalleled requests from suffering families and communities often on their last hope. Your important donation supports Long Term Care opportunities. We are up to the task and our 35 years of Award Winning Programs showcase how your contributions and our dedication difference.

Unfortunately, relapse occurrences in pediatric cancer are all too familiar. Jessica, directly left, during a special Little Star Program.
